

Attention California Residents

Prop 65

Some of the products sold on this site can expose you to chemicals including Carbon Black, Diisononyl phthalate (DINP) and Di(3-ethylhexyl) phthalate which are known to the State of California to cause cancer, birth defects or other reproductive harm.

The prop 65 warning can now be found on products that may contain a small amount of over 900 chemicals or ingredients that the OEHHA lists as a carcinogen or reproductive toxicant. This includes vinyl, coatings, plastics and much more.

Many of the elements listed under Prop 65 are common everyday additives found in products like, cable, coated fabrics, foam, herb supplements, etc.

Because of the vast array of products that might contain one of the chemicals or ingredients on the list, we must include Prop 65 warnings in our communications with you. We are required to use exact wording as specified by the state of California.

While the warning sounds alarming, the purpose is to notify you of the potential risk so that you can make an informed buying decision.

You can find more information here. The California Office of environmental Health Hazard Assessment, OEHHA, maintains a comprehensive website at www.P65Warnings.ca.gov This website explains the law and offers a list of all the chemicals and materials.

If you are a distributor or wholesaler of items from West Coast Netting Inc or The Net House, please contact us to review your product list for potential items classified under Prop 65.
